First multi-year cumulation covers six years: 1965-70.

Originally published in 1977. This annotated guide to sources of information on the social science aspects of energy and energy alternatives describes materials and sources of interest to users at all levels. The chapters separate information according to the type of material or the issuing organization. The index classifies according to type of energy, or energy issue. The final chapter is a special section of listings of empirical social science studies on energy and the energy crisis which contain detailed annotation on the methods, variables and findings. Those research projects cover attitudes, behavior, costs, policy and other energy-related matters.
